

From [2022 NASA Proposers' Guidebook](#):

2.16 Current and Pending Support

PIs and CoPIs shall provide all ongoing and pending projects and proposals (regardless of salary support) in which they are performing or will perform any part of the work. Co-Is proposing to spend 10 percent or more of their time in any given year to the proposed effort shall provide a list of ongoing and pending projects and proposals (regardless of salary support) that require more than 10 percent of their time in any given year. Proposals do not need to include the current proposal on the list of pending proposals unless it has been submitted in response to another funding opportunity (i.e., NASA or another sponsor).

PIs and Co-PIs also shall list their current and pending support with Chinese universities and other similar institutions or a Chinese-owned company at the prime recipient level and at all subrecipient levels, whether the bilateral involvement is funded or performed under a no exchange of funds arrangement³. (See paragraph 2.2.1) For those investigators for whom it is required (see above), the proposal shall provide the following information for each current and pending project:

- Title of funded project or proposal title;
- Name of PI on award or proposal;
- Program name (if appropriate) and sponsoring agency or organization, including a point of contact with their telephone number and email address;
- Performance period;
- Total amount proposed (if pending) or received by that PI (including indirect costs) for that award or the amount per year if uniform (e.g., \$50k/year); and
- Time commitment by the PI for each year of the period of performance.

The proposing PI shall notify the NASA Program Officer identified in the NOFO immediately of any successful proposals that are awarded for substantially overlapping work as proposed to NASA, any time after the proposal due date and until the announcement of NASA's selections.

Current and pending support is not required for Co-Is at non-U.S. institutions. Current and pending support is usually not required for students, but it may be requested, depending on the requirements of the NOFO. Proposers may request student funding in one of three different ways:

- As a direct labor cost, the same as a key or other personnel;
- As a scholarship or other student aid that shall comply with the requirements in 2 CFR 200.466, Scholarships and student aid costs; or
- As a participant support cost as defined in 2 CFR 200.75 Participation support costs.

³ "China or Chinese-owned Company" means the People's Republic of China (PRC), any company owned by the PRC, or any company incorporated under the laws of the PRC. Chinese universities and other similar institutions are considered to be incorporated under the laws of the PRC and, therefore, the funding restrictions apply to grants and cooperative agreements that include bilateral participation, collaboration, or coordination with Chinese universities.

2.2.1 Special Restrictions for Non-U.S. Organizations

- In general, per 2 CFR 1800.3, Applicability, research with foreign organizations will not be conducted through grants or cooperative agreements. Typically, NASA conducts research with non-U.S. organizations on a cooperative, no-exchange-of-funds basis. Although Co-Investigators (Co-Is) or collaborators employed by non-U.S. organizations may identify as part of a proposal submitted by a U.S. organization, NASA funding does not normally support research efforts by non-U.S. organizations and Collaborators at any level, including travel by investigators at non-U.S. organizations. This policy pertains to the nature of the proposing organization and not the nationality or citizenship of the individuals listed in the proposal. The direct purchase of supplies and/or services, which do not constitute research, from non-U.S. sources with NASA-awarded funds is permitted.
- In accordance with Public Law 113-235, Division B, Title V, Section 532, NASA is prohibited from funding any work that involves the bilateral participation, collaboration, or coordination with China or any Chinese-owned company or entity, at the prime recipient level or at any subrecipient level, whether funded or performed under a no-exchange-of funds basis. Accordingly, proposals shall not include bilateral participation, collaboration, or coordination with China or any Chinese-owned company or entity, whether funded or performed under a no-exchange-of-funds basis. Proposals involving bilateral participation, collaboration, or coordination in any way with China or any Chinese-owned company, whether funded or performed under a no-exchange-of-funds basis, will be ineligible for award.
