

**OAIR Approval Statuses in GMAS**

Status	Description	OK to submit proposal or set up award?
Pending	Project and investigator information has not yet been sent to OAIR	
Pending: non-HUID	Investigator information will not send to OAIR because it is associated to a non-HUID profile (these get managed manually until the profile is merged with a HUID)	
Processing in OAIR	The research certification is being processed on the OAIR side and is not yet in a state where a proposal or award can move forward.	
Pending update	The Research Certification requires additional review based on a major project milestone (award or at-risk) and project and investigator information has not yet been resent to OAIR.	
Done	The research certification is in a state in OAIR where a proposal or award can move forward.	
Done: non-HUID	This is a manually entered status for non-HUID OAIR approvals. Central users and OAIR representatives can update the OAIR approvals to this status from the approval screen.	
Withdrawn	The investigator has been removed or updated to a non-investigator from the segment research team.	
Withdrawn: non-HUID		
Withdrawn from OAIR	The OAIR approval has been withdrawn on the OAIR side. When the approval is in this status a follow-up should happen with a local OAIR representative.
